

SPRINGPRO T76 PREMIUM PACKAGE

Premium Package Includes:

- System mounts to SpringPro T76 in minutes.
- Includes inlet strainer
- 20 GPH stainless metering pump
- Outlet fuel filter
- Plumbing / electrical
- Component mounting frame

While some users may want to provide their own components for these tasks, Springboard Biodiesel recommends its Premium Package for the SpringPro T76. This clean and compact system mounts directly to the T76 in minutes. It includes an inlet strainer, a 20 GPM stainless steel metering pump which maintains its flow largely independent of head pressure, braided stainless steel jacketed plumbing to/from the inlet/exit of the T76, an exit fuel filter (automotive style), fuel filter pressure gauge, braided stainless steel jacketed connection hose attached camlock end for easy connection to a BioPro or other processor, as well as power cord, switch, and appropriate fuse. This is available as an add-on either at or after the time of purchase for \$745(MSRP)
